VOLUME 45.

The APPEAL has turned volume 45, and in view of the present hard times and depression feels that it is at least holding its own.

IF WE WERE ONLY UNANIMOUS.

The moral effect of an unanimous vote in the State of Nevada for the Silver party would be incalculable. It would rouse the people of the Eastern States to a true sense of the situation in the West.

It would cause comment all over the world and show how terribly in earnest the citizens of Nevada could be in the face of the grave emergency which now confronts them. This could easily be the case were it not for a handful of men who had rather see ruin and commercial stagnation in the Sagebrush State than to forego the pleasure of posing as party leaders, even when their party is a minority so small as to be almost unnoticed.

Their attitude should cause more regret than anger as they will only harm themselves in the long run. We think however that before election day the temper of the people here will be tried to such an extent that the men who are trying to block the wheels of silver remonetization will get a good deal worse drubbing than they got in '92 and after election they will crawl into their holes a good deal further.

This noisy flock led by the Enterprise and Gazette will only subside when crushed out of existence utterly. If these men are fighting merely to be able to say that Nevada is not unanimous for silver, it behooves the people of the State to make it so near a clean sweep in every county that the result will practically be a unification of public sentiment on that subject.
